SUMMARY:

Passionate Associate Software Engineer with 2+ years of experience in building scalable web applications using React JS, JavaScript, Node JS, MySQL, HTML, and CSS. Skilled in designing user-friendly front-end interfaces and developing efficient back-end systems. Enthusiastic about solving complex problems, collaborating with teams, and continuously learning new technologies—currently exploring Kubernetes, and Docker.

SKILLS:

- Frameworks & Libraries: Node JS, React JS, Express JS
- Programming languages: JavaScript, HTML, CSS, SQL
- Database: MySQL
- Tools: Git, Docker, Kubernetes
- Soft Skills: Cross team Collaboration, Teamwork

WORK EXPERIENCE:

Tricog Health India Pvt Ltd, Bengaluru

Dec 2022 – Present

Associate Software Engineer

- Developed and maintained web applications using React JS, Node JS, and MySQL, adhering to clean code principles to ensure functionality, performance, and scalability.
- Collaborated with cross-functional teams, including designers and QA, to deliver high-quality features, improving user satisfaction.
- Optimized slow database queries, enhancing query performance and reducing load times.
- Monitored and resolved production errors through in-depth Root Cause Analysis (RCA), improving application reliability.
- Authored unit tests to ensure robust and error-free code, reducing production bugs.

Newton School, Virtual

Dec 2021 - Dec 2022

Full Stack Developer Boot Camp

- Full Stack Developer training on MERN Stack
- Skills: React JS, JavaScript, CSS, HTML, Data Structures, Java, Git
- Developed and deployed front-end applications using above mentioned Tech Stacks on Netlify.

EDUCATION:

Rajarambapu Institute of Technology, Sangli, Maharashtra, India

Aug 2016 - Oct 2020

Computer Engineering (Bachelor of Technology) CGPA: 7.18

STEM And Jr College, Pune

Jun 2015 – Feb 2016

Senior Secondary (XII), Science, Percentage: 77.85%

INTERESTS & LEARNING GOALS:

- Interests:
 - Scalable backend system architecture & database performance tuning
 - Designing intuitive and user-friendly experiences
- Currently Learning:
 - Docker: Containerization fundamentals, creating & running containers locally
